37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

1. NATURE OF BUSINESS

37 Capital Inc. ("37 Capital" or the "Company") was incorporated on August 24, 1984 in British Columbia, Canada. The principal business of the Company is the acquisition, exploration, and if warranted, the development of natural resource prospects.

The common shares of the Company trade on the Canadian Securities Exchange (the "Exchange") under the symbol "JJJ". The Company's office is located at 575 – 510 Burrard Street, Vancouver, British Columbia, Canada, V6C 3A8, and its registered office is located at 3200 - 650 West Georgia Street, Vancouver BC V6B 4P7.

2. GOING CONCERN

These financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several adverse conditions cast substantial doubt on the validity of this assumption. The Company has incurred operating losses over the past nine months (September 30, 2025 - \$98,952) (September 30, 2024 - \$144,553) and (September 30, 2023 – \$13,759) and has incurred operating losses over the past three years (December 31, 2024 - \$208,993; December 31, 2023 - \$48,820; December 31, 2022 - \$125,036), has a deficit of \$28,721,982 as at September 30, 2025 (December 31, 2024 - \$28,623,030) (December 31, 2023 - \$28,414,037), a working capital deficiency of \$108,761 (December 31, 2024 - \$697,369) (December 31, 2023 - \$719,054). As the Company has limited resources and no sources of operating cash flow, there can be no assurances whatsoever that sufficient funding will be available for the Company to continue operations for an extended period of time.

The application of the going concern concept is dependent upon the Company's ability to raise sufficient funding to pay creditors and to satisfy its liabilities as they become due. Management is actively engaged in the review and due diligence on opportunities of merit and is seeking to raise the necessary capital to meet its funding requirements. There can be no assurance whatsoever that management's plan will be successful.

If the going concern assumption were not appropriate for these financial statements then adjustments may be necessary in the carrying value of assets and liabilities, the reported expenses and the balance sheet classifications used. Such adjustments could be material.

3. BASIS OF PRESENTATION

(a) Statement of compliance

These condensed interim financial statements are prepared in accordance with the International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretation Committee ("IFRIC").

(b) Basis of presentation

These condensed interim financial statements were prepared in accordance with International Accounting Standard 34 Interim Financial Reporting. They do not include all of the information required for full annual financial statements.

These condensed interim financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

3. BASIS OF PRESENTATION (Continued)

- (c) Approval of the financial statements

These financial statements were approved and authorized for issue by the Board of Directors on December 1, 2025.

- (d) Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Accounting estimates will, by definition, seldom equal the actual results. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The key area of judgment applied in the preparation of the financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities is as follows:

- assessment of the Company's ability to continue as a going concern and whether there are events or conditions that give rise to significant uncertainty;
- the classification/allocation of expenses as exploration and evaluation expenditures or operating expenses; and
- the determination whether there have been any events or changes in circumstances that indicate the impairment of its exploration and evaluations assets.

The key estimates applied in the preparation of the financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- The recoverability of the carrying value of exploration and evaluation assets;
- The provision for income taxes and recognition of deferred income tax assets and liabilities;
- The inputs in determining the liability and equity components of the convertible debentures; and
- The inputs in determining the fair value of share-based payments.

4. MATERIAL ACCOUNTING POLICY INFORMATION

Effective January 1, 2023, the Company adopted Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2), which require entities to disclose material accounting policies instead of significant accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies that provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements. While the amendments did not result in any changes to the Company's accounting policies themselves, they impacted the accounting policy information disclosed in the Company's financial statements.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

5. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

The material accounting policies of the Company include the following:

- (a) Financial instruments
 - (i) Recognition and classification

The Company classifies its financial instruments in the following categories:

- At fair value through profit and loss (“FVTPL”): cash
- Amortized cost: accounts payable and accrued liabilities, due to related parties, loan payable and convertible debentures

The Company determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Company’s business model for managing the financial assets and their contractual cash flow characteristics. Equity instruments that are held for trading are classified as FVTPL. For other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate them as at FVTOCI. Financial liabilities are measured at amortized cost, unless they are required to be measured at FVTPL (such as instruments held for trading or derivatives) or if the Company has opted to measure them at FVTPL.

- (ii) Measurement

Financial assets and liabilities at amortized cost

Financial assets and liabilities at amortized cost are initially recognized at fair value plus or minus transaction costs, respectively, and subsequently carried at amortized cost less any impairment.

Financial assets and liabilities at FVTPL

Financial assets and liabilities carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statements of comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets and liabilities held at FVTPL are included in the statements of comprehensive loss in the period in which they arise.

- (iii) Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the Company measures the loss allowance for the financial asset at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the Company measures the loss allowance for the financial asset at an amount equal to the twelve month expected credit

- (iii) Impairment of financial assets at amortized cost (continued)

losses. The Company shall recognize in the statements of comprehensive loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

(iv) Derecognition

Financial assets

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and / or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Gains and losses on derecognition are generally recognized in profit or loss.

(b) Mineral property interests

Costs directly related to the acquisition, exploration and evaluation of resource properties are capitalized once the legal rights to explore the resource properties are acquired.

The mineral property interests are tested for impairment if facts or circumstances indicate that impairment exists:

- the period for which the Company has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is neither budgeted nor planned;
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area; and
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

If it is determined that capitalized acquisition, exploration and evaluation costs are not recoverable, or the property is abandoned or management has determined there is an impairment in value, the property is written down to its recoverable amount. From time to time, the Company acquires or disposes properties pursuant to the terms of option agreements. Options are exercisable entirely at the discretion of the optionee, and accordingly, are recorded as mineral property costs or recoveries when the payments are made or received. After costs are recovered, the balance of the payments received is recorded as a gain on option or disposition of mineral property interest.

Once the technical feasibility and commercial viability of the extraction of mineral resources are demonstrable, mineral property interests attributable to that area of interest are first tested for impairment and then reclassified to mining property and development assets within property and equipment.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

To date, the Company's mineral property interest has not demonstrated technical feasibility and commercial viability. The recoverability of the carrying amount of any mineral property interests is dependent on successful development and commercial exploitation or, alternatively, sale of the respective areas of interest.

(c) Impairment

At the end of each reporting period, the Company's assets are reviewed to determine whether there is any indication that those assets may be impaired. If such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash flows, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

(d) Decommissioning liabilities

An obligation to incur decommissioning and site rehabilitation costs occurs when environmental disturbance is caused by exploration, evaluation, development or ongoing production.

Decommissioning and site rehabilitation costs arising from the installation of plant and other site preparation work, discounted to their net present value, are provided when the obligation to incur such costs arises and are capitalized into the cost of the related asset. These costs are charged against operations through depreciation of the asset and unwinding of the discount on the provision.

Depreciation is included in operating costs while the unwinding of the discount is included as a financing cost. Changes in the measurement of a liability relating to the decommissioning or site rehabilitation of plant and other site preparation work are added to, or deducted from, the cost of the related asset. The costs for the restoration of site damage, which arises during production, are provided at their net present values and charged against operations as extraction progresses.

Changes in the measurement of a liability, which arise during production, are charged against operating profit. The discount rate used to measure the net present value of the obligations is the pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the obligation. To date the Company does not have any decommissioning liabilities.

(e) Income taxes

Income tax expense consisting of current and deferred tax expense is recognized to profit or loss. Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at period-end, adjusted for amendments to tax payable with regard to previous years.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements

Nine Months Ended September 30, 2025 and 2024

(Expressed in Canadian Dollars)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Deferred tax assets and liabilities and the related deferred income tax expense or recovery are recognized for deferred tax consequences attributable to differences between the carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted or substantively enacted tax rates expected to apply when the asset is realized or the liability settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that substantive enactment occurs.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

(f) Share-based payments

The Company grants stock options to directors, officers, employees and consultants of the Company. The fair value of share-based payments to employees is measured at grant date, using the Black-Scholes Option Pricing Model, and is recognized over the vesting period using the graded method. Fair value of share-based payments for non-employees is recognized and measured at the date the goods or services are received based on the fair value of the goods or services received. If it is determined that the fair value of goods and services received cannot be reliably measured, the share-based payment is measured at the fair value of the equity instruments issued using the Black-Scholes Option Pricing Model.

For both employees and non-employees, the fair value of share-based payments is recognized as either an expense or as mineral property interests with a corresponding increase in option reserves. The amount to be recognized as expense is adjusted to reflect the number of share options expected to vest. Consideration received on the exercise of stock options is recorded in capital stock and the related share-based payment is transferred from the stock option reserve to capital stock. For unexercised options that expire, the recorded value is transferred to deficit.

(g) Convertible debentures

The liability component of convertible debentures is recognized initially at the fair value of a similar liability that does not have a conversion option. The equity component is recognized initially, as the difference between the fair value of the convertible debenture as a whole and the fair value of the liability component. Transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts. Subsequent to initial recognition, the liability component of the convertible debenture is measured at amortized cost using the effective interest method. The equity component is not re-measured subsequent to initial recognition.

(h) Loss per share

Loss per share is calculated by dividing net loss attributable to common shares of the Company by the weighted average number of common shares outstanding during the year. The Company uses the treasury stock method for calculating diluted loss per share. Under this method, the dilutive effect on earnings per share is calculated on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds of such exercise would be used to purchase common shares at the average market price during the period. However, the calculation of diluted loss per share excludes the effects of various conversions and exercise of options and warrants that would be anti-dilutive.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

(i) Capital stock

Proceeds from the exercise of stock options and warrants are recorded as capital stock. The proceeds from the issuance of units of the Company are allocated between common shares and warrants based on the residual value method. Under this method, the proceeds are allocated first to capital stock based on the fair value of the common shares at the time the units are issued, and any residual value is allocated to the warrants. When the warrants are exercised, the related value is transferred from the warrant reserve to capital stock. For unexercised warrants that expire, the recorded value is transferred from the warrant reserves to deficit.

On the issuance of flow-through shares, any premium received in excess of the market price of the Company's common shares is initially recorded as a liability ("flow-through tax liability"). Provided that the Company has renounced the related expenditures, or that there is a reasonable expectation that it will do so, the flow-through tax liability is reduced on a pro-rata basis as the expenditures are incurred. If such expenditures are capitalized, a deferred tax liability is recognized. To the extent that the Company has suitable unrecognized deductible temporary differences, an offsetting recovery of deferred income taxes would be recorded.

(j) Foreign currency translation

Amounts recorded in foreign currency are translated into Canadian dollars as follows:

- i. Monetary assets and liabilities, at the rate of exchange in effect as at the balance sheet date;
- ii. Non-monetary assets and liabilities, at the exchange rates prevailing at the time of the acquisition of the assets or assumption of the liabilities; and
- iii. Revenues and expenses (excluding amortization, which is translated at the same rate as the related asset), at the rate of exchange on the transaction date.

Exchange differences are recognized in profit or loss in the period which they arise.

(k) New Accounting Policies, Standards and Interpretations

On May 1, 2024, the Company adopted the following amendments and accounting standards:

In January 2020, the IASB issued Classification of Liabilities as Current or Non-current (Amendments to IAS 1) which amended IAS 1, Presentation of Financial Statements ("IAS 1"), to clarify the requirements for presenting liabilities in the statement of financial position. The amendments specify that the Company must have the right to defer settlement of a liability for at least 12 months after the reporting period for the liability to be classified as non-current. In addition, the amendments clarify that: (a) the Company's right to defer settlement must exist at the end of the reporting period; (b) classification is unaffected by management's intentions or expectations about whether the Company will exercise its right to defer settlement; (c) if the Company's right to defer settlement is subject to the Company complying with specified conditions, the right exists at the end of the reporting period only if the Company complies with those conditions at the end of the reporting period, even if the lender does not test compliance until a later date; and (d) the term settlement includes the transfer of the Company's own equity instruments to the counterparty that results in the extinguishment of the liability, except when the settlement of the liability with the Company transferring its own equity instruments is at the option of the counterparty and such option has been classified as an equity instrument, separate from the host liability.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

(k) New Accounting Policies, Standards and Interpretations (continued)

In October 2022, the IASB issued amendment Non-current Liabilities with Covenants to IAS 1 to clarify that covenants of loan arrangements which the Company must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. The amendment also introduces additional disclosure requirements related to such covenants to include: (i) the nature of the covenants and the date by which the Company must comply with the covenants; (ii) the carrying amount of the related liabilities; and (iii) facts and circumstances, if any, that indicate that the Company may have difficulty complying with covenants.

The adoption of these amendments did not have a material impact on the Company's consolidated financial statements.

(l) Future Changes in Accounting Policies Not Yet Effective

In April 2024, the IASB issued IFRS Accounting Standards 18, Presentation and Disclosure in Financial Statements ("IFRS 18") to replace IAS 1. IFRS 18 introduces two newly required subtotals on the face of the income statement, which includes operating profit and profit or loss before financing and income tax, and three new income statement classifications, which are operating, investing, and financing. In addition, IFRS 18 requires non-IFRS Accounting Standards management performance measures that are subtotals of income and expenses to be disclosed on financial statement. IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to the primary financial statements and the notes. IFRS 18 will not affect the recognition and measurement of items in the financial statements, nor will it affect which items are classified in other comprehensive income and how these items are classified. The standard is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements. Retrospective application is required and early application is permitted. The Company is currently assessing the effect of this new standard on its financial statements.

5. MINERAL PROPERTY INTERESTS

Balance, December 31, 2024 and September 30, 2025	<u>\$ 104,502</u>

Extra High Property

The Extra High property is located in south-central British Columbia, approximately 60 kilometres north of the City of Kamloops, British Columbia, Canada and 22 km east of the town of Barriere. It lies on the southwest side of Samatosum Mountain, located north of Skwaam Bay on Adams Lake. It is centered at 51°08'03" N latitude and 119°49'16" W longitude. It consists of five contiguous BC MTO mineral titles in the Kamloops Mining Division and covers an area of 649 hectares.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

5. MINERAL PROPERTY INTERESTS (Continued)

During 2023, the Company hired the services of Discovery Consultants of Vernon, British Columbia (“Discovery”) to plan, conduct, and complete the Company’s exploration work program on the Extra High Property (the “Company’s 2023 Exploration Work Program”). The Company’s 2023 Exploration Work Program consisted of 2 Phases. The Company incurred \$20,000 of exploration related expenditures for Phase 1, and the Company incurred \$24,991 of exploration related expenditures for Phase 2, for a total amount of \$44,991.

As at December 31, 2024 and September 30, 2025, the Company owns a 100% undivided right, interest, and title in and to the Extra High Property.

The mineral claims covering the Extra High Property are valid until December 28, 2028.

The Extra High Property is subject to a 1.5% Net Smelter Royalty (“NSR”) payable to a third party, 50% of which, or 0.75%, can be purchased by the Company at any time by paying \$500,000.

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	September 30, 2025	December 31, 2024
Trade payables	\$ 8,399	\$ 31,189
Accrued liabilities	<u>11,996</u>	<u>35,172</u>
	<u>\$ 20,395</u>	<u>\$ 66,361</u>

7. RELATED PARTY TRANSACTIONS

The amounts due to related parties are unsecured, payable on demand which consist of the following:

	September 30, 2025	December 31, 2024
Entities controlled by directors (non-interest-bearing)	\$ 7,805	\$ 110,069
	<u>\$ 7,805</u>	<u>\$ 110,069</u>

The convertible debentures and accrued interest of \$572,089 (December 31, 2024 - \$549,589) are owed to the Chief Executive Officer, and to a former director of the Company (note 9).

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

7. RELATED PARTY TRANSACTIONS (Continued)

During the nine-month period ended September 30, the following amounts were charged by related parties.

	2025	2024
Interest charged on amounts due to related parties	\$ -	\$ 8
Rent charged by entities with common directors (note 13)	9,000	9,000
Office expenses charged by, and other expenses paid on behalf of the Company by a company with common directors (note 13)	10,872	12,204
	\$ 19,872	\$ 21,212

The Company, together with Jackpot Digital Inc. ("Jackpot"), a related company with certain common directors, have entered into an office lease agreement, and an office support services agreement (note 13).

During 2024, an insider of the Company subscribed 610,000 units in the capital of the Company at \$0.10 per unit in the private placement financing.

The Company entered into a settlement agreement dated July 24, 2025 with Jackpot, in settlement of debt totaling \$119,700, through the issuance of 1,330,000 common shares of the Company at a deemed price of \$0.09 per share. The shares are subject to a hold period expiring December 2, 2025. As of September 30, 2025, Jackpot holds 1,587,377 common shares, representing 6.27% of the issue and outstanding common shares of the Company.

8. LOAN PAYABLE

During May 2021, a party lent the Company \$50,000. During the year ended December 31, 2024, the Company repaid the principal amount of \$30,000. During the nine months ended September 30, 2025, the Company paid \$38,466 towards the outstanding principal and the accrued interest. As of September 30, 2025, the loan has been fully repaid.

9. CONVERTIBLE DEBENTURES FINANCING

Convertible Debentures Financing 2015

On January 6, 2015, the Company closed a convertible debenture financing with two directors of the Company for the amount of \$250,000. The convertible debentures matured on January 6, 2016, and bear interest at the rate of 12% per annum payable on a quarterly basis. The convertible debentures are convertible into common shares of the Company at a conversion price of \$1.50 per share. The liability component of the convertible debentures was recognized initially at the fair value of a similar liability with no equity conversion option, which was calculated based on the application of a market interest rate of 25%. On the initial recognition of the convertible debentures, the amount of \$222,006 was recorded under convertible debentures and the amount of \$27,994 has been recorded under the equity portion of convertible debenture reserve.

On October 29, 2021, the Company entered into an Addendum to the convertible debentures whereby the maturity date of the principal amount totaling \$250,000 of the convertible debentures together with the accrued interest has been extended indefinitely, until mutual consent of the Company and Lender has been reached.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

9. CONVERTIBLE DEBENTURES FINANCING (Continued)

At September 30, 2025, the Company recorded interest expense of \$22,500 (December 31, 2024 - \$30,000). As of September 30, 2025, \$250,000 (December 31, 2024 - \$250,000) of convertible debentures are outstanding plus the accrued interest of \$322,089 (December 31, 2024 - \$299,589).

The following table reconciles the fair value of the debentures to the carrying amount.

	Liability Component		Equity Component		Total
Balance, December 31, 2023	\$	519,589	\$	33,706	\$ 553,295
Interest accrued		30,000		-	30,000
Balance, December 31, 2024	\$	549,589	\$	33,706	\$ 583,295
Interest accrued		22,500		-	22,500
Balance, September 30, 2025	\$	572,089	\$	33,706	\$ 605,795

10. CAPITAL STOCK

(a) Authorized

Unlimited number of common and preferred shares without par value.

As of September 30, 2025, there are no preferred shares issued.

(b) Issued

As of September 30, 2025, there are 25,335,947 common shares issued and outstanding.

During the nine months ended September 30, 2025, the following transactions occurred:

- During August 2025, the Company issued 1,330,000 common shares of the Company at a deemed price of \$0.09 in settlement of debt totaling \$119,700.
- During September 2025, a total of 3,800,000 common shares were issued pursuant to the exercise of certain warrants totaling \$190,000.
- On August 28, 2025, the Company closed the first tranche of the non-brokered private placement financing which was announced on July 30, 2025, for gross proceeds of \$178,500 through the issuance of 2,550,000 units of the Company at \$0.07 per unit. Each unit consists of one common share in the capital of the Company and one share purchase warrant to purchase an additional common share in the capital of the Company at the price of \$0.10 per common share for a period of three (3) years. Finder's fees consist of \$2,450 cash, \$140 admin fees and 35,000 warrants exercisable at \$0.10 for two years. All securities issued in connection with this financing include a hold period in accordance with applicable securities laws. Based on the residual value the warrants were valued at \$nil.
- On September 15, 2025, the Company closed the second and final tranche of the non-brokered private placement was announced on July 30, 2025, for gross proceeds of \$171,500 through the issuance of 2,450,000 units of the Company at \$0.07 per unit. Each unit consists of one common share in the capital of the Company and one share purchase warrant to purchase an additional common share in the capital of the Company at the price of \$0.10 per common share for a period of three (3) years. Finder's fees consist of \$1,575 cash and 22,500 warrants exercisable at \$0.10 for two years. All securities issued in connection with this financing include a hold period in accordance with applicable securities laws. Based on the residual value the warrants were valued at \$nil.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

10. CAPITAL STOCK (Continued)

b) Issued (continued)

During the year ended December 31, 2024, the following transaction occurred.

- a) On October 31, 2024 and December 10, 2024, the Company closed two tranches of private placement which was announced on October 1, 2024 for gross proceeds of \$117,000 and issued 1,170,000 units of the Company. Each unit consists of one common share in the capital of the Company and one share purchase warrant to purchase an additional common share in the capital of the Company at the price of \$0.15 per common share for a period of three (3) years. The Company paid a finder's fee of \$1,500 in cash and issued 15,000 share purchase warrants exercisable for two (2) years at the price of \$0.15 per share. All securities issued in connection with this financing include a hold period in accordance with applicable securities laws
- b) On September 20, 2024, the Company closed a non-brokered private placement financing for gross proceeds of \$29,000 through the issuance of 290,000 units of the Company at \$0.10 per unit. Each unit consists of one common share in the capital of the Company and one share purchase warrant to purchase an additional common share in the capital of the Company at the price of \$0.15 per common share for a period of three (3) years. All securities issued in connection with this financing include a hold period in accordance with applicable securities laws. Based on the residual value the warrants were valued at \$nil.

During the year ended December 21, 2021, the following share transaction occurred:

On January 15, 2021, the Company issued 80,000 flow-through units for proceeds of \$20,000. Each flow-through unit consists of one flow-through common share of the Company and one non-flow-through share purchase warrant to acquire one non-flow-through common share of the Company at a price of \$0.50 for a period of two years. During the year-ended December 31, 2022, the Company made a formal application to Canada Revenue Agency and cancelled the Company's flow-through share application, which was submitted during the year ended December 31, 2020. As at December 31, 2024 and September 30, 2025, the Company has included a provision for indemnification of the flow through shareholder for an amount of \$10,000 in accounts payable.

(c) Warrants

Warrants activity is as follows:

	Number of Warrants		Weighted Average Exercise Price
Balance, December 31, 2023	9,200,000	\$	0.05
Issued	1,475,000	\$	0.15
Balance, December 31, 2024	10,675,000	\$	0.06
Issued	5,057,500	\$	0.10
Exercised	(3,800,000)	\$	0.05
Balance, September 30, 2025	11,932,500	\$	0.08

37 CAPITAL INC.**Notes to Condensed Interim Financial Statements
Nine Months Ended September 30, 2025 and 2024
(Expressed in Canadian Dollars)****10. CAPITAL STOCK (Continued)****(c) Warrants (continued)**

As of September 30, 2025, the following warrants were outstanding:

<u>Expiry Date</u>	<u>Exercise Price</u>	<u>Number of Warrants Outstanding</u>
October 31, 2026	\$ 0.15	15,000
August 28, 2027	\$ 0.10	35,000
August 31, 2027	\$ 0.05	250,000
September 15, 2027	\$ 0.10	22,500
October 7, 2027	\$ 0.05	450,000
September 20, 2027	\$ 0.15	290,000
October 31, 2027	\$ 0.15	650,000
December 4, 2027	\$ 0.15	520,000
May 15, 2028	\$ 0.05	3,700,000
July 24, 2028	\$ 0.05	1,000,000
August 28, 2028	\$ 0.10	2,550,000
September 15, 2028	\$ 0.10	<u>2,450,000</u>
		<u>11,932,500</u>

The weighted average remaining contractual life for warrants outstanding at September 30, 2025 is 2.67 (September 30, 2024 – 3.57 years).

(d) Stock options

The Company's 2015 Stock Option Plan provides that the Board of Directors of the Company may grant to directors, officers, employees and consultants of the Company options to acquire up to 20% of the issued and outstanding common shares of the Company calculated from time to time on a rolling basis. The terms of the options are determined at the date of grant.

On January 29, 2024, the Company issued 1,250,000 stock options with an exercise price of \$0.10 per share. The options expire in three years from the grant date and vest 25% on the grant date, with 25% vesting each 6 months following the grant date. The fair value of the options granted was \$92,665 or \$0.074 per option.

On January 29, 2024, the Company issued 500,000 stock options with an exercise price of \$0.10 per share. The options expire in three years from the grant date and vest 25% one-year from the grant date, with 25% vesting each 6 months following the one-year anniversary. The fair value of the options granted was \$30,666 or \$0.061 per option.

On December 5, 2024, the Company issued 400,000 stock options with an exercise price of \$0.10 per share. The options expire in three years from the grant date and vest 25% on the grant date, with 25% vesting each 6 months following the grant date. The fair value of the options granted was \$25,972 or \$0.065 per option.

The following summarizes the officer, director and consultants stock options that were granted and expired during the year ended December 31, 2024 and the nine months ended September 30, 2025. The options vest 25% on grant and thereafter at 25% every six months or after one year:

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

10. CAPITAL STOCK (Continued)

(d) Stock options

	Number of Options	Weighted Average Exercise Price
Balance, December 31, 2023	-	-
Issued	2,150,000	\$0.10
Expired	(250,000)	\$0.10
Balance, December 31, 2024 and September 30, 2025	1,900,000	\$0.10

The weighted average remaining contractual life for options outstanding at September 30, 2025 is 1.51 years (September 30, 2024 – 2.33 years)

The Company applies the fair value method using the Black-Scholes option pricing model in accounting for its stock options granted. Accordingly, share-based payments of \$8,651 (September 30, 2024 - \$72,155) were recognized as employee benefits and \$23,374 (September 30, 2024 - \$nil) was recognized as recovery of consulting fees for options granted to consultants.

11. COMMITMENTS

- a) The Company has an office lease agreement with Jackpot. Under the agreement, the Company is entitled to have office space from Jackpot at a monthly rate of \$1,000 plus applicable taxes. Furthermore, Jackpot or the Company may terminate this agreement by giving each other three months' notice in writing.
- b) The Company has an office support services agreement with Jackpot which has been extended until September 30, 2025. Under the agreement, the Company is entitled to receive office support services from Jackpot at a monthly rate of \$1,000 plus applicable taxes. Either Jackpot or the Company may terminate this agreement by giving each other three-month' notice in writing.
- c) In relation to the flow-through private placement completed during January 2021, the Company was committed to incur and renounce \$20,000 in Canadian exploration expenditures by December 31, 2022. The Company was unable to incur the \$20,000. The Company has agreed to indemnify the flow-through shareholder for certain costs incurred by the shareholder as a result of the Company not meeting its obligation to spend the flow-through share proceeds on qualifying Canadian exploration expenditures in compliance with the applicable tax rules and pursuant to the share subscription agreement. As at December 31, 2024 and September 30, 2025, the Company has included a provision for indemnification of the flow through shareholder for an amount of \$10,000 in accounts payable.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

12. CAPITAL MANAGEMENT

The Company considers its capital to be comprised of stockholders' deficiency and convertible debenture.

The Company's objective when managing capital is to maintain adequate levels of funding to support the acquisition, exploration and, if warranted, the development of mineral properties, to invest in non-mining related projects and to maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity and debt financing. Future financings are dependent on market conditions and there can be no assurance that the Company will be able to raise funds in the future. There were no changes to the Company's approach to capital management during the nine months ended September 30, 2025. The Company is not subject to externally imposed capital requirements.

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

(a) Risk management overview

The Company's activities expose it to a variety of financial risks including credit risk, liquidity risk and market risk. This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Company employs risk management strategies and policies to ensure that any exposure to risk is in compliance with the Company's business objectives and risk tolerance levels. While the Board of Directors has the overall responsibility for the Company's risk management framework, the Company's management has the responsibility to administer and monitor these risks.

(b) Fair value of financial instruments

The fair values of cash, accounts payable and accrued liabilities, due to related parties, loan payable and convertible debentures approximate their carrying values due to the short-term maturity of these instruments.

IFRS establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The financial instruments that potentially subject the Company to a significant concentration of credit risk consist of cash. The Company mitigates its exposure to credit loss associated with cash by placing its cash with a major financial institution.

(d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they are due. The Company's approach to managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when due.

37 CAPITAL INC.

Notes to Condensed Interim Financial Statements Nine Months Ended September 30, 2025 and 2024 (Expressed in Canadian Dollars)

13. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Continued)

(d) Liquidity risk (Continued)

At September 30, 2025, the Company had cash of \$488,000 (December 31, 2024 - \$59,922) available to apply against short-term business requirements and current liabilities of \$600,289 (December 31, 2024 - \$763,523). All of the current liabilities are due within 90 days. Amounts due to related parties are due on demand. As of September 30, 2025, two convertible debentures together with the accrued interest for a total amount of \$572,089 are outstanding. Liquidity risk is assessed as high.

(e) Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Company's net earnings or the value of financial instruments. As at September 30, 2025, the Company is not exposed to significant interest rate risk, currency risk or other price risk on its financial assets and liabilities due to the short-term maturity of its financial liabilities and the fixed interest rate on the outstanding convertible debentures.

13. EVENTS AFTER REPORTING PERIOD

- (a) On October 1, 2025 the Company entered into a management services agreement with Kalpakian Bros of BC Ltd. for an initial term of one year at a monthly rate of \$4,000 plus GST.
- (b) A total of 500,000 warrants were exercised for total proceeds of \$25,000.
- (c) The Company closed the first, second and third tranches of the private placement financing announced on September 26, 2025, and issued 1,775,000 units at \$0.125 per unit for total proceeds of \$221,875. Each unit consists of one common share and one share purchase warrant exercisable at the price of \$0.15 per shares for a period of three (3) years. An insider of the Company acquired 320,000 units from the third tranche closing.
- (d) The Company granted a total of 2,465,000 options to directors and officers exercisable at \$0.155 per share for three years.
